Page 62: Banking

Page 73: Appendix (Additional Banking data)

## **SUMMARY**

### Ireland has continued its recovery in 2012

#### Government set to cut deficit to 8.3% in 2012, beating target again

- Troika (EC/ ECB/ IMF) very pleased with delivery on all Programme benchmarks; significant outperformance versus fiscal targets in 2011
- Fiscal numbers on track after Q3 (and three Troika reviews)

### Second consecutive year of modest GDP growth expected

- Export growth remained resilient in 2012, despite euro area difficulties;
   Ireland's forecast GDP growth among highest in euro area
- But domestic demand may not bottom until H2 2013

### Bank deleveraging plan has continued apace and other contingent liabilities reduced sharply

- Pillar bank deleveraging to be virtually complete by end year two of three
- Government is reforming insolvency laws to deal with mortgage arrears
- Ireland's main contingent liability being reduced: NAMA is well on track to repay €7.5bn by 2013 of its senior bonds (repaid €3.25bn by end-H1 2012).
- ELG liability down to €78.3bn by September 2012 (€56.7bn were deposits)

### NTMA plans to regain normal market access in 2013

#### NTMA bond market return for first time in almost two years in July-September 2012

- Returned to Treasury Bills market with three auctions. Brought rate down from 1.8% initially to 0.55%. Around 80% of the bills bought by international buyers.
- Sold €4.2bn of conventional long-term bonds in July, at rate just below 6%. The majority of the purchases again came from overseas.
- Sold €1bn in amortising bonds at 5.91% in August; this is a new product mainly demanded by the domestic pensions industry to construct sovereign annuities
- Reduced near €12bn redemption in January 2014 to €7.6bn through switches: €5.2bn of that €7.6bn redemption is also covered by the new funding raised

### Next steps towards sustainable market re-entry late in 2012/ early 2013

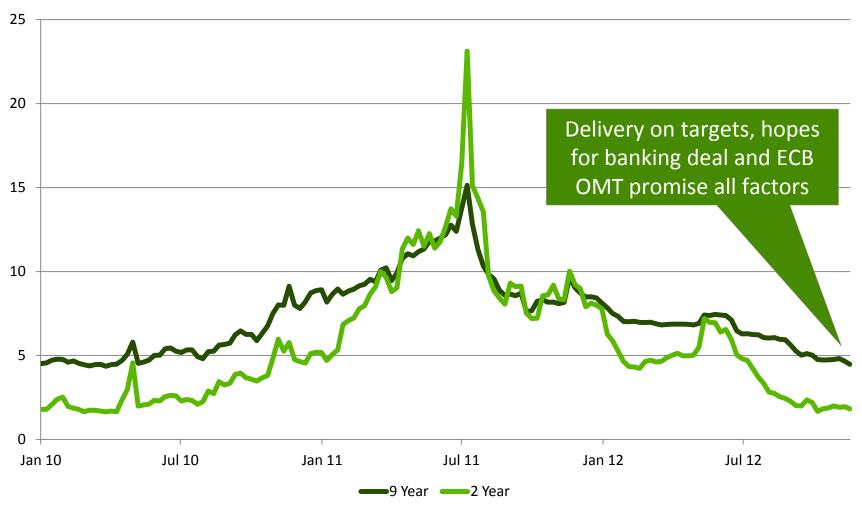

- Launch of longer-term bond issue, possibly through syndication in € or \$
- Introduction of inflation-linked bonds: driven mainly by domestic demand

#### Euro area financial conditions have improved, but risks remain

- In order to sustain Ireland's improvement, EU must act on summit declaration of 29 June 2012 to break "vicious circle between banks and sovereigns" and to examine "special case" Irish situation (as per recent communiqués)
- The advent of the ECB's revamped bond purchase programme Outright Monetary Transactions (OMT) – led to sharp rally at the short-end of euro area yield curves. Programme available for countries with normal market access.

### Irish bond market recovery continues in 2012

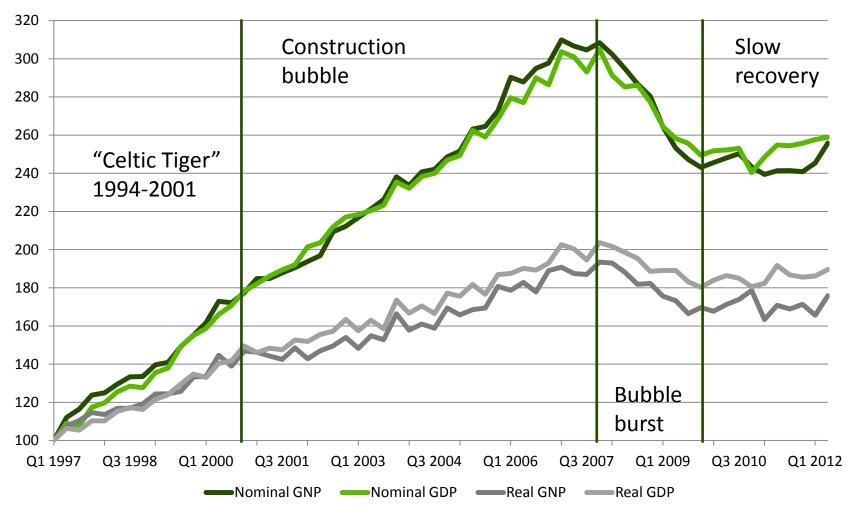

Source: Bloomberg (weekly data)

## **SECTION 1: MACRO**

Ireland expected to grow again in 2012; PMIs well above euro area average; but domestic demand weak, thanks to necessary deleveraging

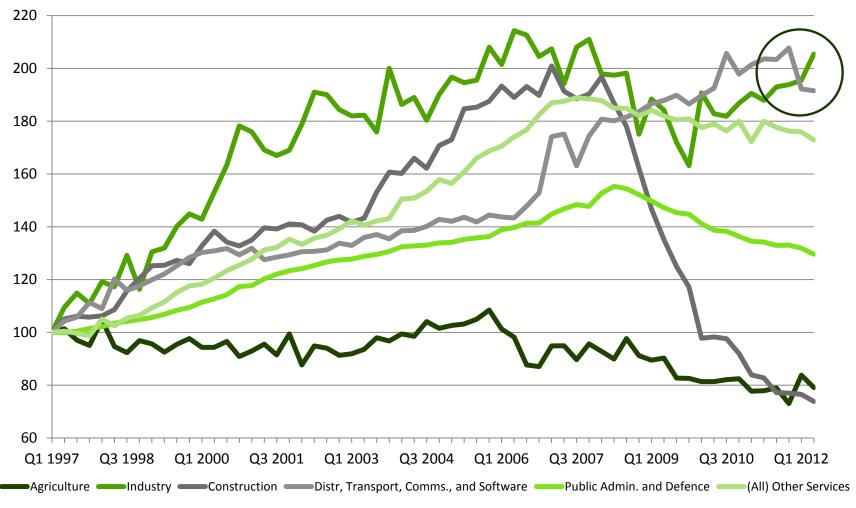

### Economy stable since end-2009 (Q1 1995= 100)

Source: CSO

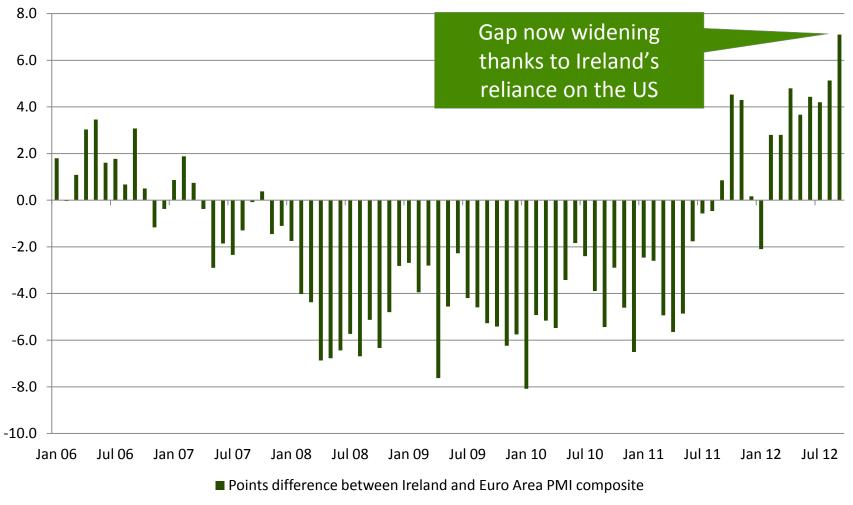

## Ireland's export sectors perform best over long run (gross output by main sector, Q1 1997 = 100)

Source: CSO

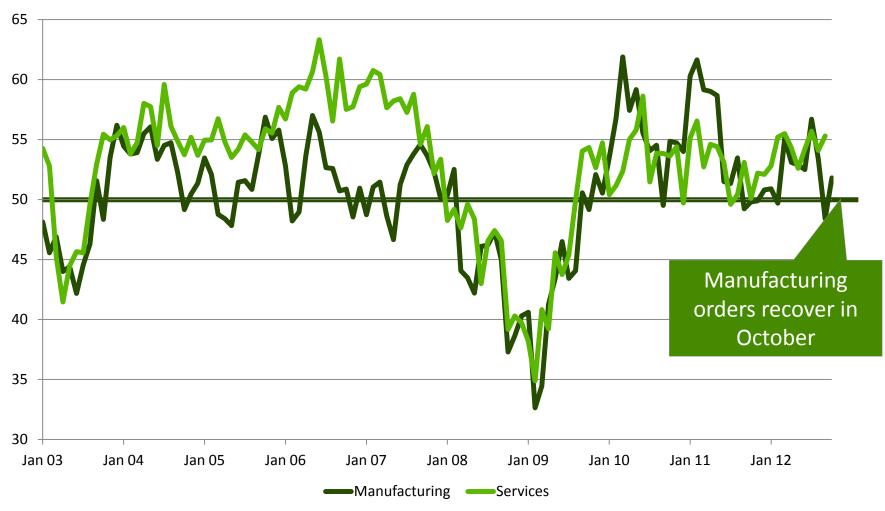

### Ireland's PMI now much stronger than euro area's

Source: Markit; Bloomberg; NCB

### New export orders (from PMI) have driven Irish GDP

Source: Markit; NCB; CSO

### Third quarter data better than in H1

#### Goods export volumes jump (% change Y-Y)

Source: CSO

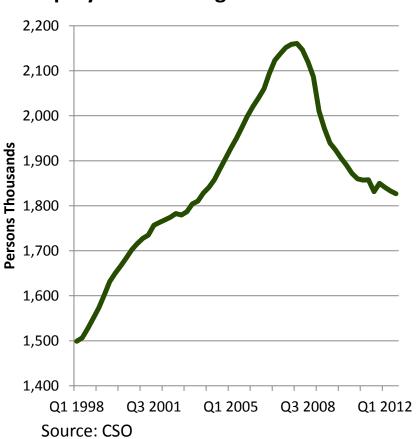

#### **Retail sales improve**

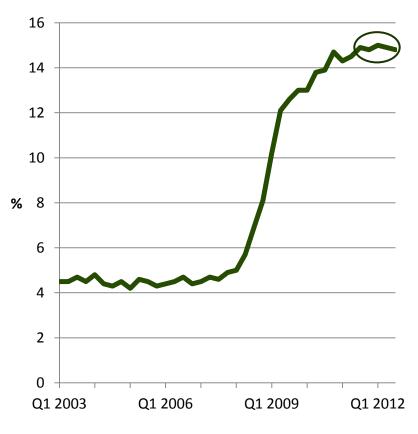

### Labour market stabilising, but still weak

#### **Employment inching lower**

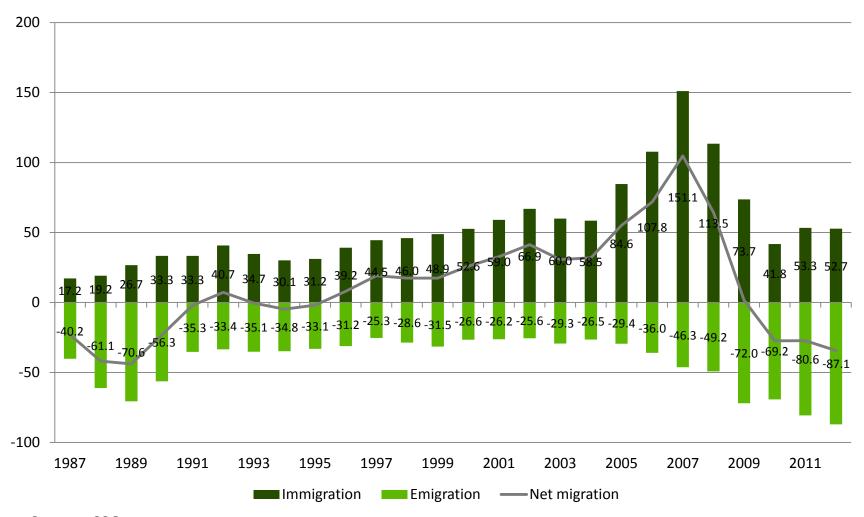

#### **Unemployment rate stable**

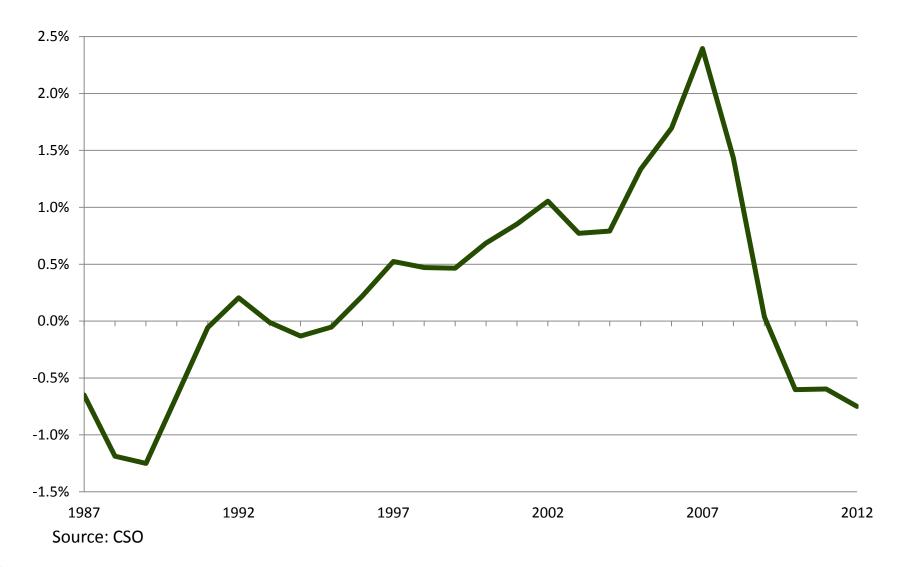

### Net emigration for first time since mid-1990s (000s)

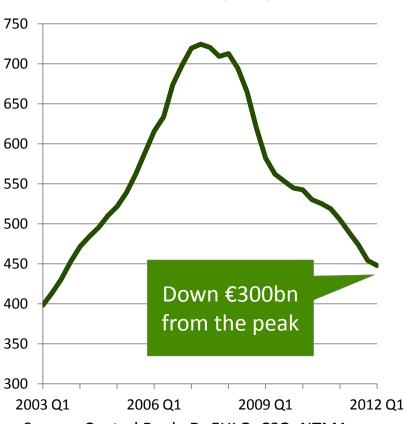

# Net emigration as % of population not as bad as in the late 1980s

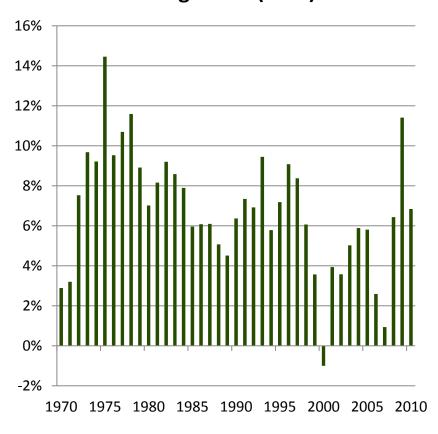

# Deleveraging and negative wealth effects also hurting consumer spending

#### Household net worth (€bn)

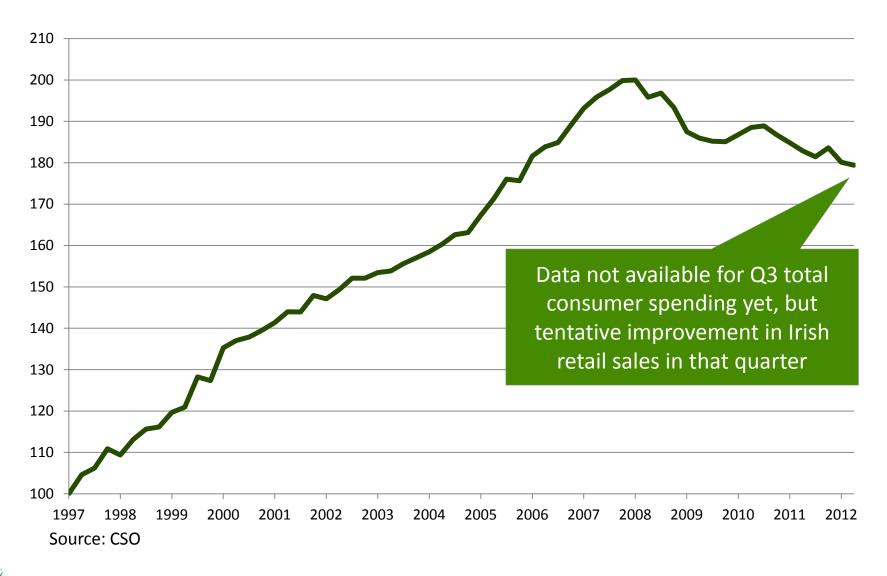

#### Source: Central Bank; DoEHLG; CSO; NTMA

#### Household savings ratio (% DI)

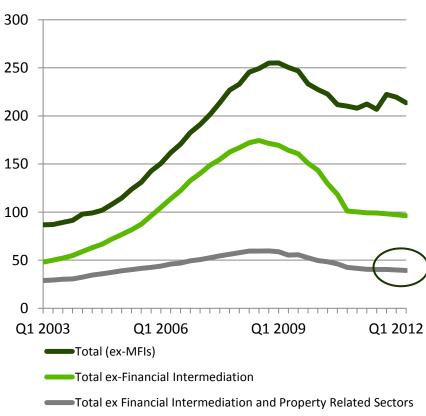

# Consumer spending still declining: back to 2006 levels, but 80% higher than 15 years ago (1997=100)

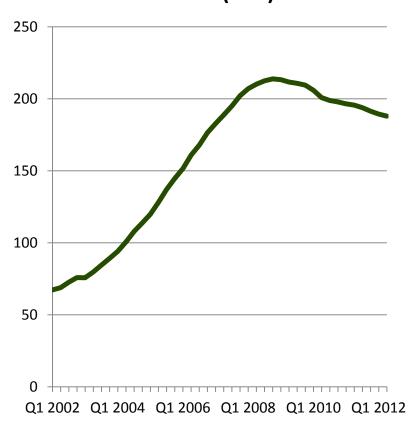

# Debt levels are high, apart from "core" domestic private companies

#### **Credit to resident Irish enterprises (€bn)**

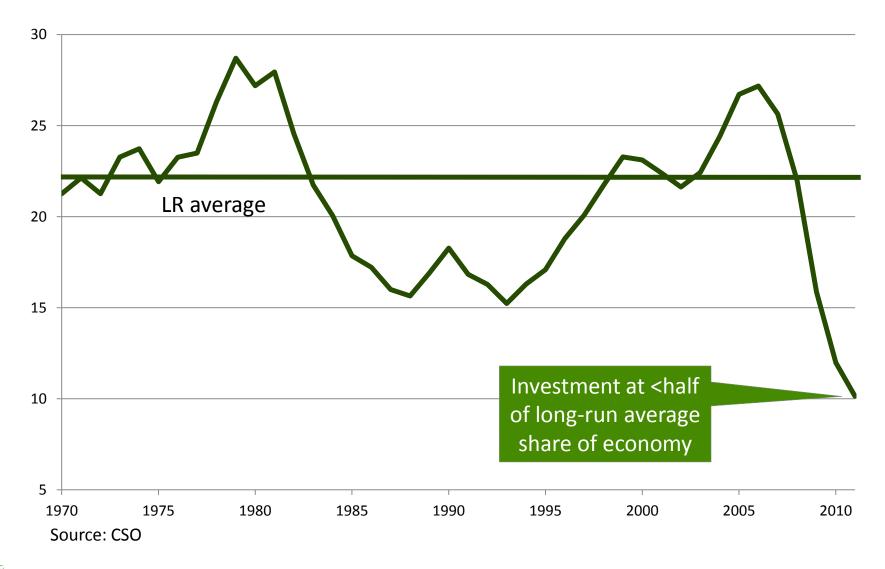

#### Source: Central Bank of Ireland

### Household liabilities (€bn)

### Investment as a % GDP at all-time low

### Economic and fiscal forecasts: MTFS, 2012

	2011	2012F	2013F	2014F	2015F
GDP (% change, volume)	1.4	0.9	1.5	2.5	2.9
GNP (% change, volume)	-2.5	1.4	0.9	1.7	2.1
Current Account (% GDP)	1.1	3.4	4.3	4.2	4.3
General Government Debt (% GDP)	106	118	121	120	117
General Government Balance (% GDP)*	-9.1	-8.3	-7.5	-5.0	-2.9

<sup>\*</sup> Underlying: ex-banking recapitalisation

## **SECTION 2: REBALANCING**

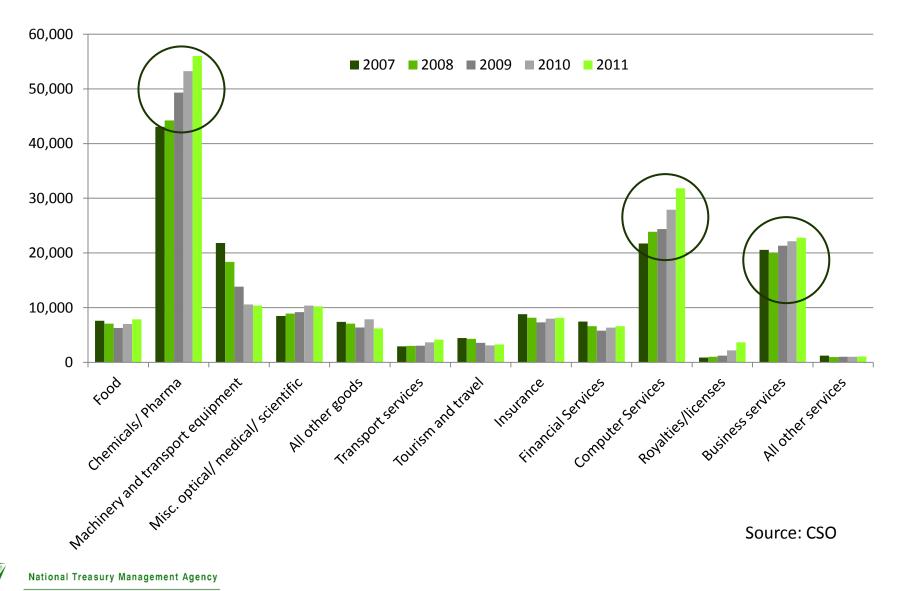

Ireland has accomplished the bulk of its "internal devaluation"; and outperforms other troubled countries thanks to its flexible economy

## Ireland's BoP current account surplus reflects largescale rebalancing of economy (4QMA % GDP)

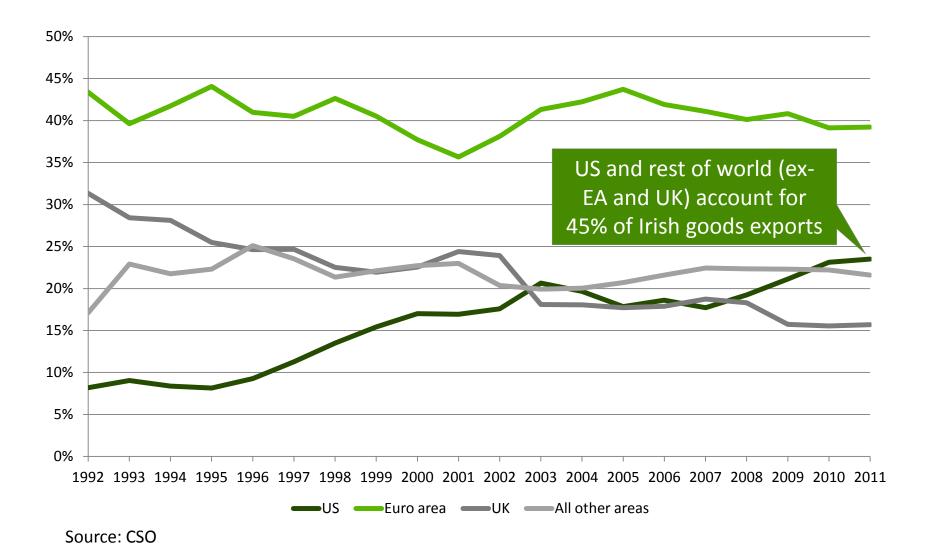

## Exports dominated by pharmaceuticals, IT and businesses services (scale €m)

# Ireland to benefit more than most from decline in FX value of euro in 2012 (goods export shares)

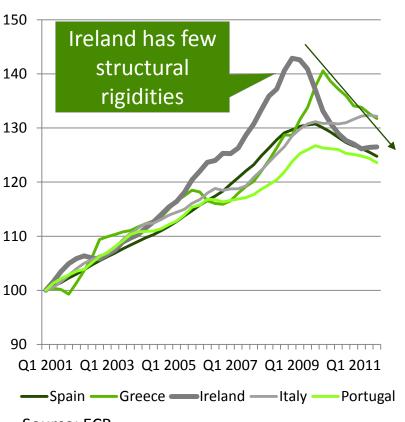

National Treasury Management Agency

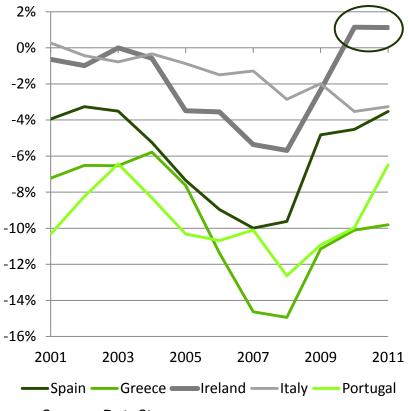

## Ireland's competitive position vastly different to the other non-core countries

#### Unit Labour Costs (Q1 2001=100)

#### Source: ECB

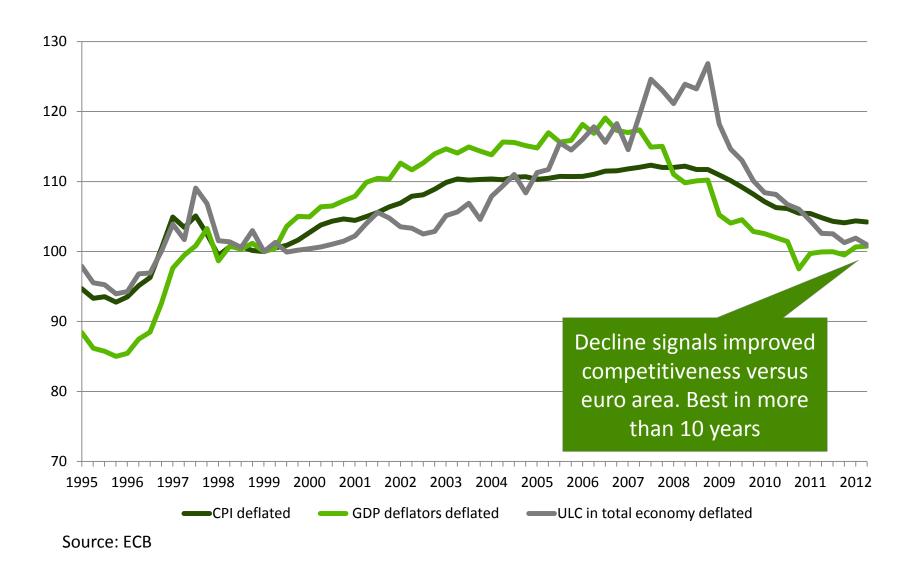

#### **Current Account Balance (% GDP)**

Source: DataStream

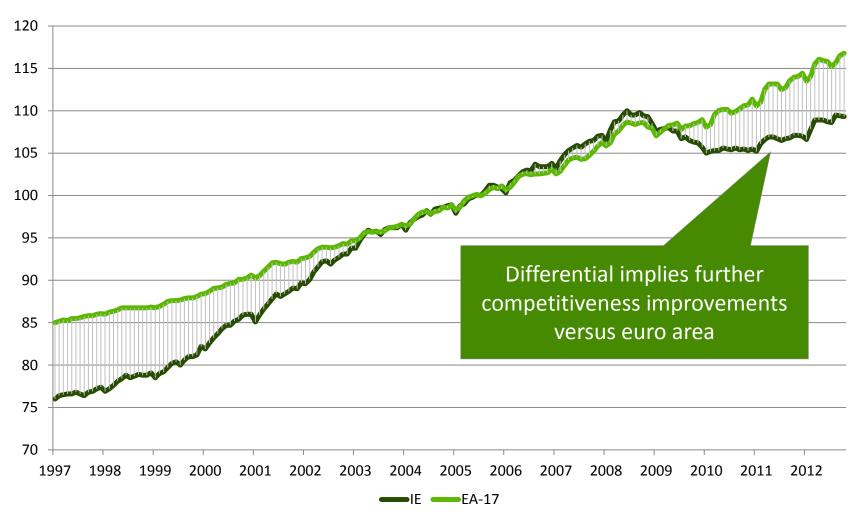

# Ireland's real exchange rate (versus rest of euro area) has improved dramatically since 2008 (Q1 1999=100)

## Ireland's HICP Inflation has undershot that of the euro area since 2008

## Ireland is far more open than other non-cores

	Exports (%GDP)	Imports (%GDP)	Openness proxy (X+M/GDP)
Ireland	106	84	1.90
Spain	30	31	0.61
Italy	29	30	0.59
Portugal	35	39	0.75
Greece	21	29	0.50

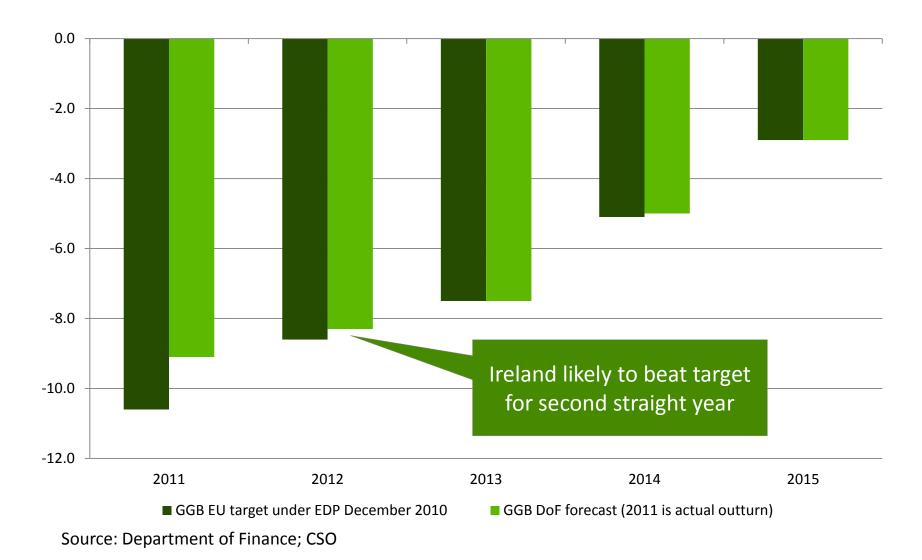

Source: Datastream (for 2011)

## **SECTION 3: FISCAL & FUNDING**

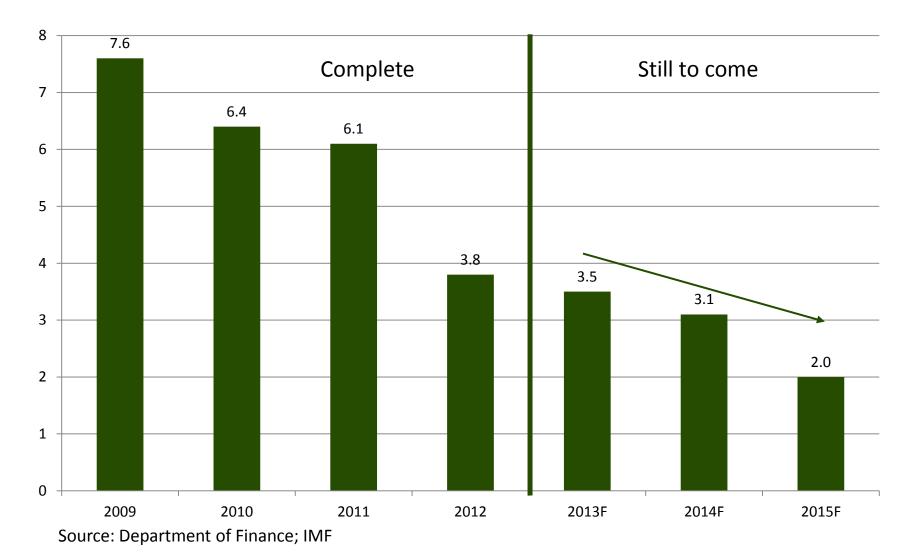

Fiscal trends improving: further two-year challenge to stabilise debt ratio

# Government has stuck to its fiscal targets (GGB % GDP) under the Programme and EDP procedure

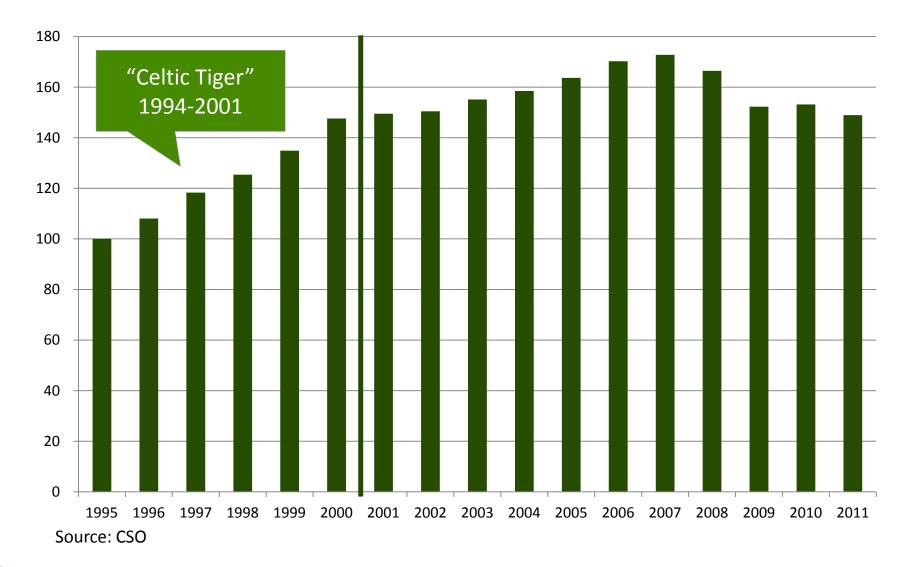

# Planned gross annual fiscal consolidation to 2015 (€bn), the target year to meet 3% of GDP deficit rule

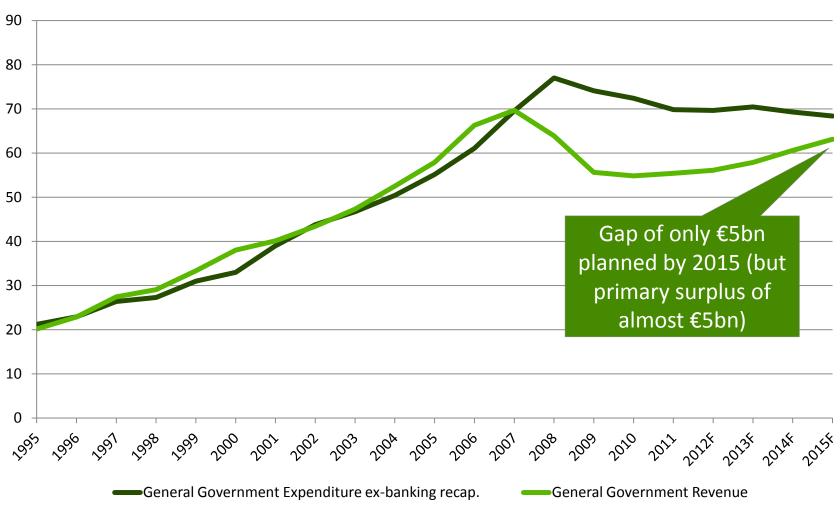

# Gains from 2001-07 bubble lost, but living standards up c. 50% from 1994 (real GNI per capita 1995 =100)

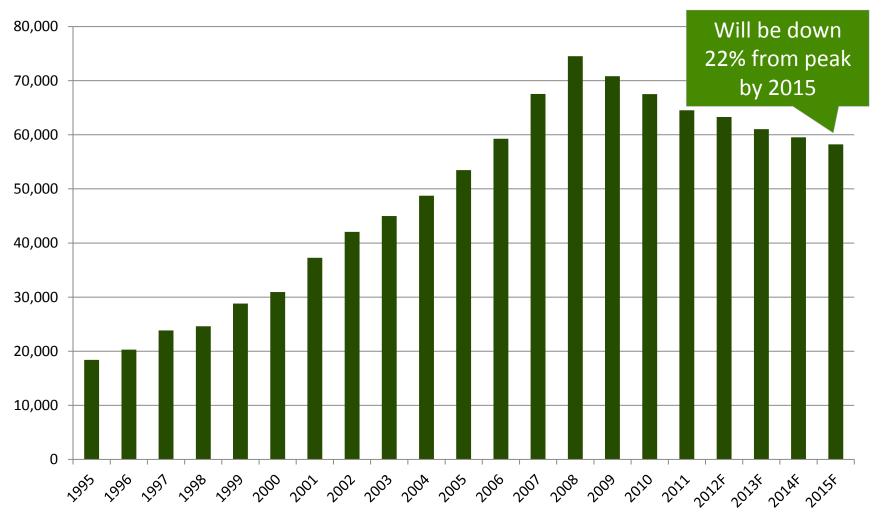

# General Government revenue is growing and expenditure coming down (€bn)

Source: Department of Finance; Eurostat

### Primary government expenditure cut sharply (€m)\*

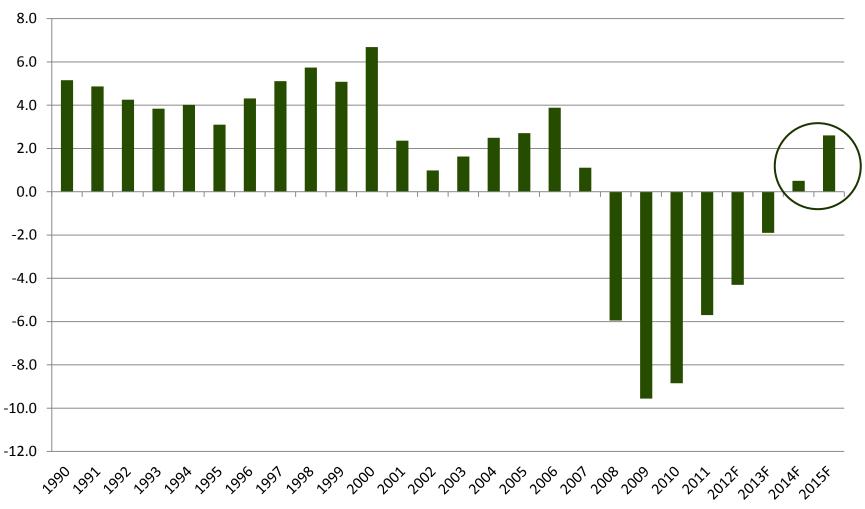

Source: Eurostat

<sup>\*</sup>excluding interest expenditure (and banking recapitalisation)

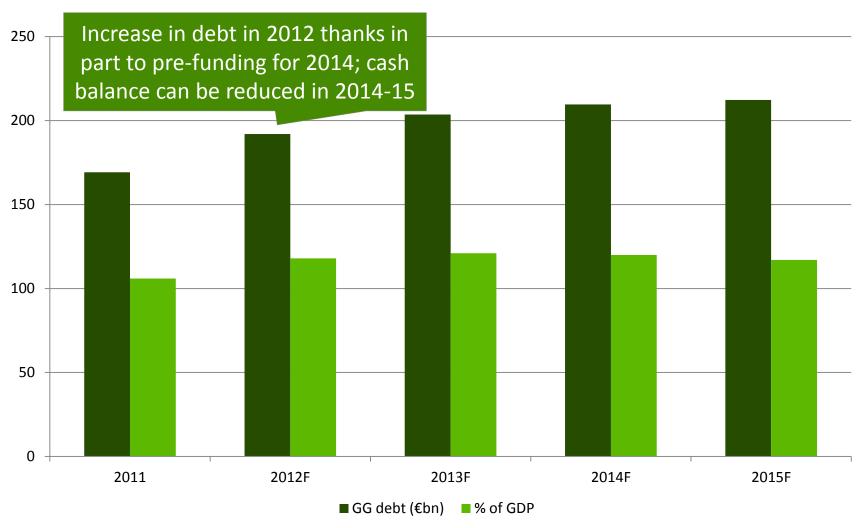

# Ireland not far from confirming debt sustainability: primary surplus (% of GDP) to be achieved by 2014

Source: Department of Finance: SPU, April 2012; Eurostat

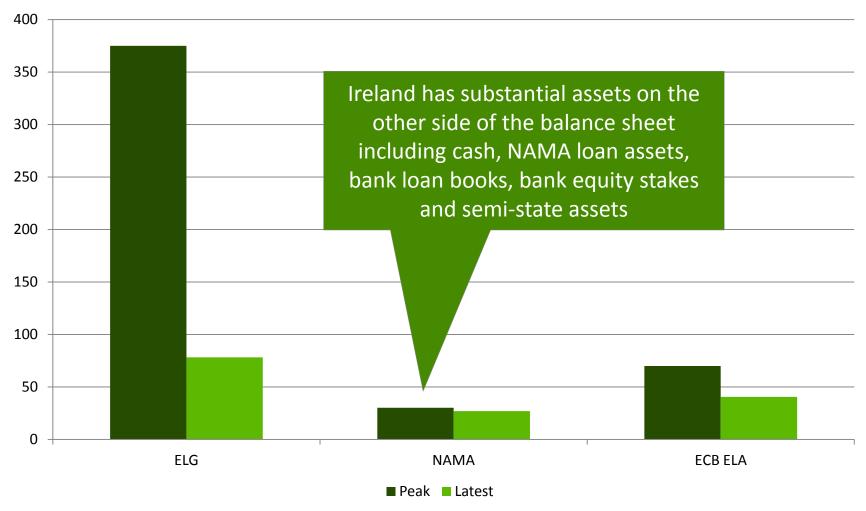

# Gross Government debt stabilises below 120% of GDP in 2013, as nominal GDP revised up for 2011

Source: Department of Finance: SPU, November 2012; CSO (new National Accounts)

### Contingent liabilities reduced considerably (€bn)

Source: NTMA; Central Bank of Ireland; NAMA

## Foreign ownership of marketable bonds is high

### Maturity profile now much smoother for 2013-2015

### Total funding requirement declining steadily (€bn)

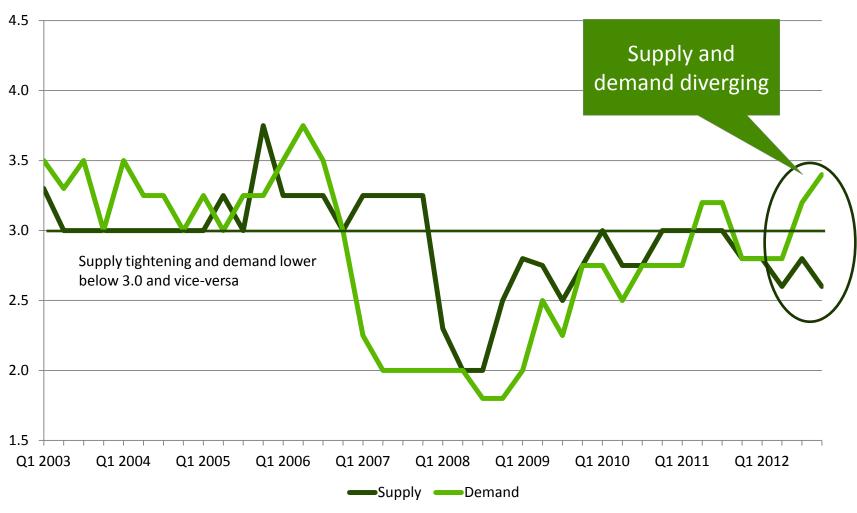

National Treasury Management Agency

## **SECTION 4: PROPERTY**

House prices have tentatively stabilised in 2012, but risks remain; interest rising in Irish commercial property thanks to search for yield

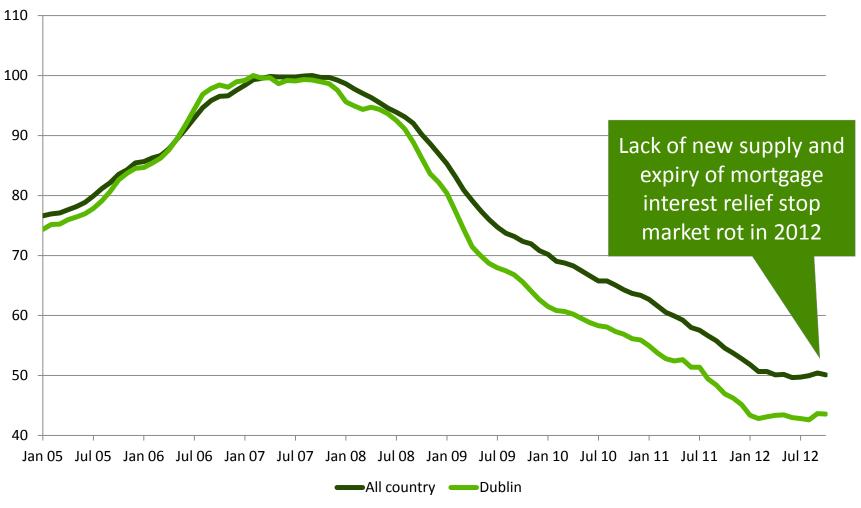

# Mortgage demand picked up before expiry of interest relief, but banks tighten credit standards

Source: ECB

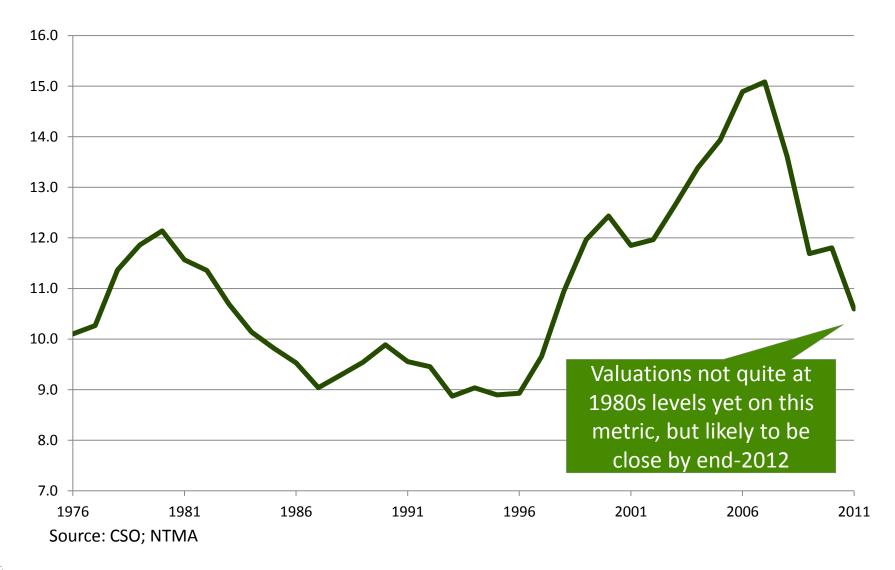

# House prices rise for first time in five years, but risks remain for 2013

Source: CSO

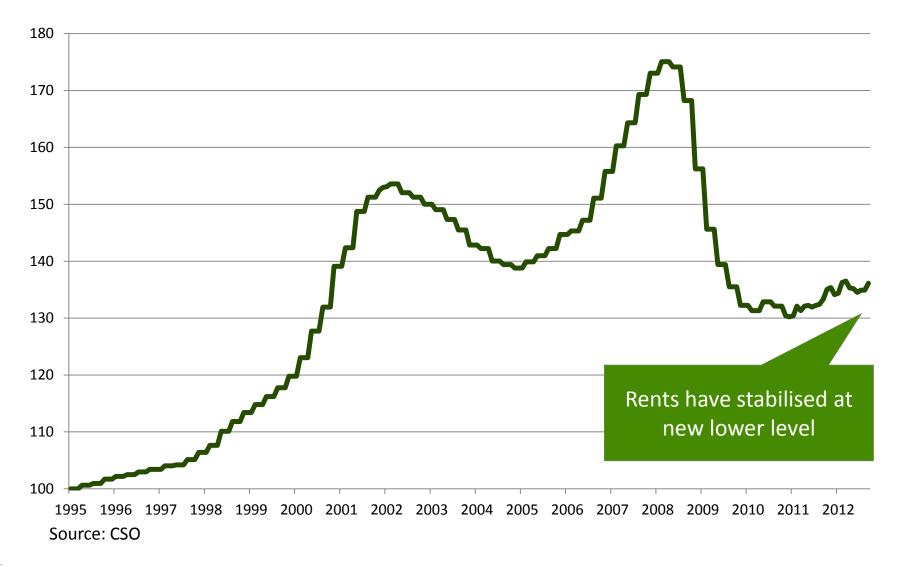

# House prices as a ratio of disposable income per capita nearly back to typical trough of 8-9x

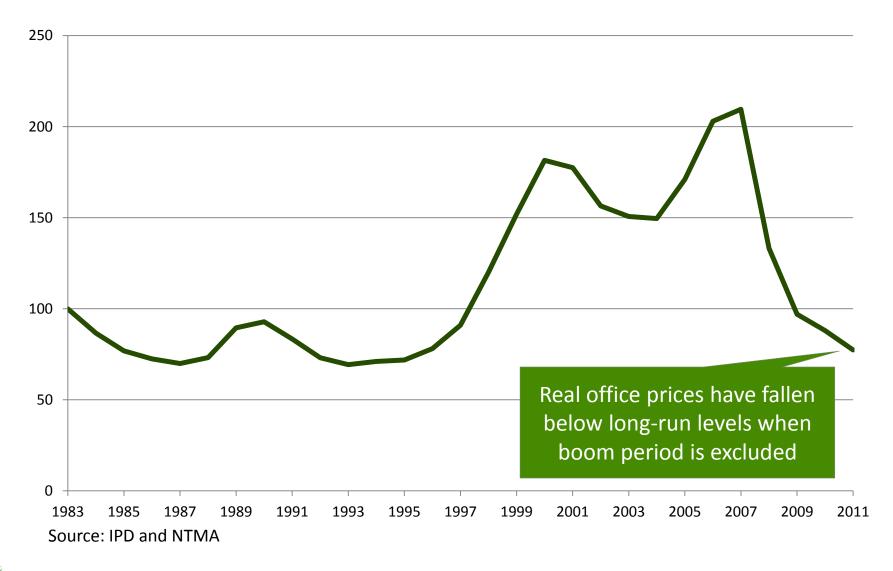

# But private housing rents generally rising in last 12 months (CPI sub-index)

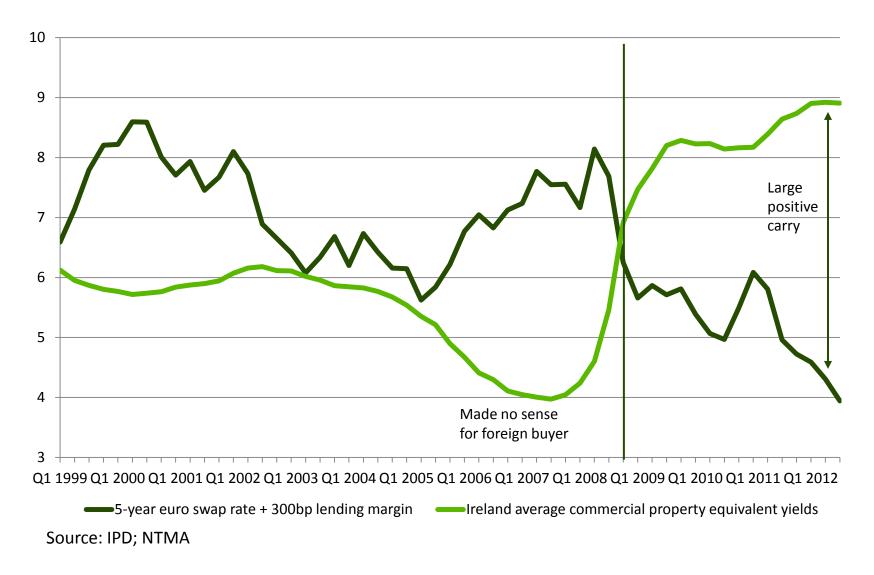

# Real commercial property prices in 2011 were down over 60 per cent from their peak

### Foreign buyers now interested on valuation grounds

## **SECTION 5: NAMA**

### NAMA: progress to end September 2012

#### NAMA's operating performance is strong

- Successfully acquired 12,000 loans (over 45,000 individual properties) related to
   €73.8 billion par of loans of 800 debtors for €31.8 billion
- New organisation established from scratch (226 staff recruited with long standing experience in banking, asset management and property)
- As of September month-end, individual credit decisions totalled 16,000 including €1.6 billion in development and working capital. Over €10.5 billion in approved sales as at 30th September 2012. €6.2billion have completed and the active disposal pipeline is estimated at €2.2bn

### Senior debt redemption on track

- Paid down €3.55 billion of NAMA debt (€3.25billion NAMA Bonds and €0.3 billion to the State)
- Cash balances and liquid asset holding of €4.2 billion as of 30<sup>th</sup> September 2012 (including CSA derivative collateral paid to the NTMA); €9.5 billion in cash generated by NAMA since inception
- Total cash flows in excess of €9.5bn have been generated since March 2010, and NAMA currently has €4bn of cash on hand

# NAMA: financial summary 2011 and H2 2012 financial results (€bn)

	2011 Full Year	2012 Half Year
Operating Profit before impairment	1.28	0.43
Incremental Impairment Charge	1.27	0.13
Deferred Tax Credit	0.24	0.13*
Net Profit After Tax	0.25	0.22
Cumulative Provisions	2.75	2.88
Net Capital Reserves	0.47	0.51

<sup>\*</sup> Deferred Tax Release (Charge)

- NAMA continues to generate Operating Profits after impairment charges, despite unfavourable market movements
- **2011 Operating Profit €1.278bn** (before impairment charge of **€1.267bn**). Cumulative impairment of **€2.75** bn to end of 2011
- Management accounts for H1 2012 show an operating profit of €425m before an incremental impairment charge of €129m

## NAMA: Distribution of larger debtors

Nominal Debt	Number of debtors	Average nominal debt per debtor €m	Total nominal debt in this category €m
In excess of €2,000m	3	2,758	8,275
Between €1,000 and €2,000m	9	1,549	13,945
Between €500m and €999m	17	674	11,454
Between €250m and €499m	34	347	11,796
Between €100m and €249m	82	152	12,496
Between €50m and €100m	99	68	6,752
Between €20m and €50m	226	32	7,180
Less than €20m	302	7	2,117
TOTAL	772	96	74,015

### NAMA: Strategy is three-pronged

### Financing Strategy

NAMA has approved the advance of over €1.6 billion in working and development capital, providing equity capital and credit facilities only where appropriate

### Asset Disposal

- Will be orderly and phased to generate maximum return for taxpayer
- ▶ 19% (Q3 2012) of original NAMA portfolio is performing.\* That figure may rise, as business plans are approved or rejected.

### Debt reduction targets; to reduce contingent liability of the Irish State

By year-end 2013: €7.5bn of NAMA senior notes to be repaid; By year-end 2020 all of NAMA senior notes to be repaid

<sup>\*</sup> This figure relates to legacy loan facility obligations and does not reflect acquired loan value

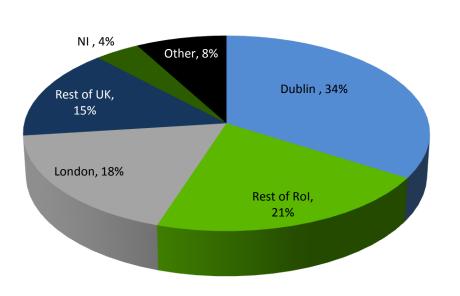

### NAMA: strategic initiatives

- Deferred Payment Initiative: Offers price protection to residential buyers. Piloted in May with family homes in Greater Dublin and Cork. Second phase launched in October. Sales agreed or reservations placed on 81 properties (sales value €15.5m).
- **Vendor Finance:** Offers medium-term finance to commercial buyers. First transaction in April (Dublin 2 Offices). Others under consideration, including regional retail centre and IFSC properties.
- Qualifying Investor Fund: Offers reduced transaction risk and increased tax
  efficiency to institutional investors. NAMA to hold minority share. QIF Board to
  decide on acquisitions. Tender process for investment management and custodian
  services underway. NAMA to hold minority share. Q1 2013 launch.
- **Social Housing:** Offers long-term leasing options to local authorities. More than 3,800 units identified. Local authorities have assessed about 2,000 of these units and have confirmed demand for 1,600 of houses and apartments. NAMA facilitates direct engagement between Local Authorities and debtors (or receivers).
- **Public Bodies:** Works closely with public bodies to identify synergies between their needs and NAMA's property portfolio. All conducted on a commercial basis.

### Original property portfolio by region

### 10,000+ properties, 45,000 units

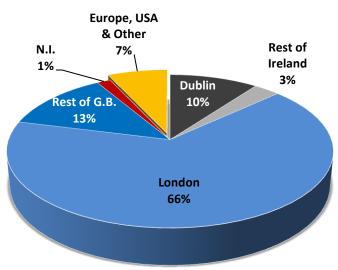

Jurisdiction	Market value of assets (Nov. 2009) €bn	%
Ireland	17.5	54
Britain	10.9	34
Northern Ireland	1.3	4
Other	2.2	8
TOTAL	31.8	100

### Asset disposals to end-August 2012

## Sales proceeds received by asset location

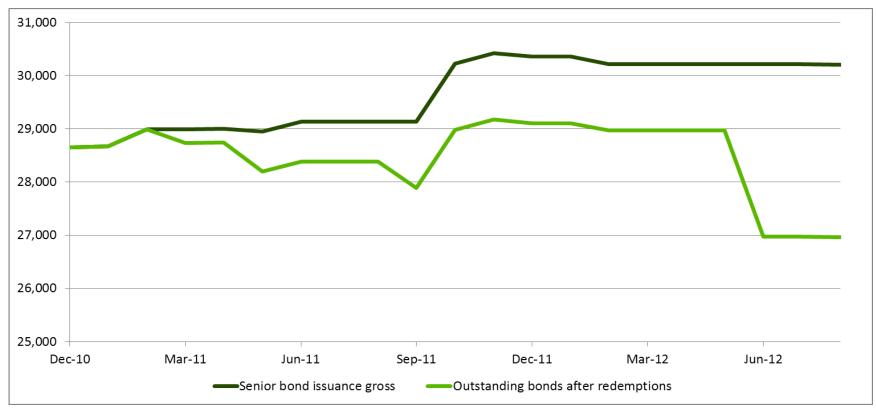

- Main focus to date on UK disposals due to liquidity etc.
- Increasing emphasis on Irish disposals in response to heightened international demand
- Current Status: €6.4bn generated in asset disposals to end-November 2012

Asset Type	Value €bn	%
Dublin	€0.6	10
Rest of Ireland	€0.2	3
London	€3.8	66
Rest of Great Britain	€0.7	13
Northern Ireland	€0.1	1
EU, USA and Other	€0.4	7
TOTAL	€5.7	100

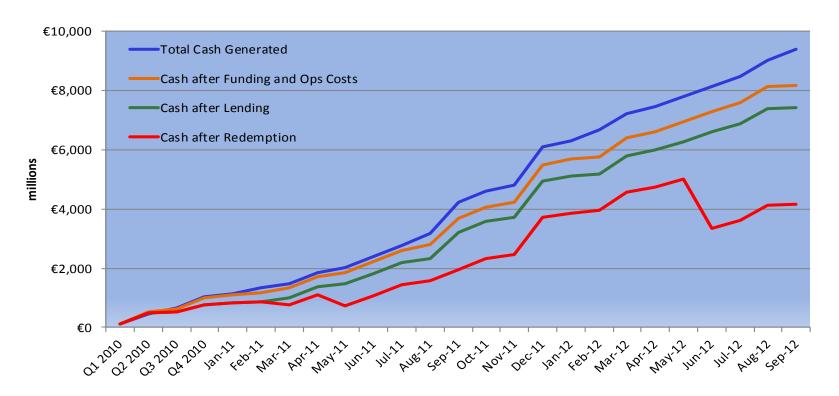

### NAMA: Summary of bond activity since inception

- Senior notes in issuance at 30th September 2012 €26.957bn
- Subordinated bonds in issuance at 30th September 2012 €1.594bn
- Cumulative debt redemptions of €3.55 billion to date (on 27 June 2012 €2bn senior notes redeemed; total senior notes redeemed of €3.25bn)

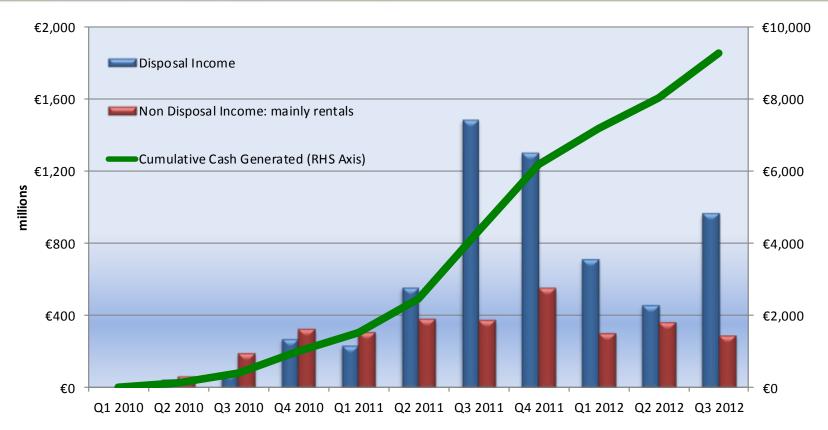

### NAMA: Summary of cash flows since inception

- Total cash generated of €9.5 billion between 31st Mar 2010 and 30th Sep 2012
- Includes disposal proceeds €6.2 billion; Recurring income/other income €3.3bn
- NAMA senior debt redemptions of €3.25 billion to date
- Lending disbursement (new advances) of €0.75 billion
- Funding Costs (€0.78 billion) and miscellaneous/operating costs (€0.3 billion)
- Leaving net cash balances of €4.2 billion (including CSA collateral posting) as at 30<sup>th</sup> Sep 2012

# NAMA: cash received disposal v. non-disposal income

Source: NAMA

#### Key feature is the level of non-disposal income

- €100m monthly run-rate of non-disposal income
- Overall cash generation is very important to NAMA's future strategy,

# NAMA: favourable property market measures in Budget 2012

- Budget 2012 contained a number of significant measures aimed at boosting the property market
  - Helped to boost NAMA's book of loan assets, underpin collateral in the banking system and brought forward mortgage demand
- Stamp duty on commercial property cut from 6% to 2%
  - Now lower than the current UK rate. Should boost overseas demand
- NAMA can directly approve rent reductions with tenants of commercial properties under its control
  - Changes to upward-only rent legislation shelved
- Incentive Scheme
  - Property bought before the end of 2013 will be exempt from CGT on sale as long as it is held for at least seven years

### NAMA: future outlook

- NAMA on plan to meet short-term debt redemption targets (€7.5bn by Dec 2013)
  - Market restoration initiatives have commenced to support mediumterm goals. Deferred payments, vendor finance and social initiatives are building momentum and will be supplemented by QIF in 2013
  - Possible introduction of REIT legislation
  - NAMA intends to make €2bn of vendor finance available between 2013 and 2016 to support disposal activities. The majority of new equity is expected early in the period, i.e. 2013-14. The initiative will widen the potential investor base, even where finance is offered but not accepted, and will help overcome weak credit availability.
  - NAMA intends to provide €2bn of development capital to projects in Ireland between 2013 and 2016 to support disposal and market restoration objectives.
  - Agency well positioned to achieve long-term objectives

National Treasury Management Agency

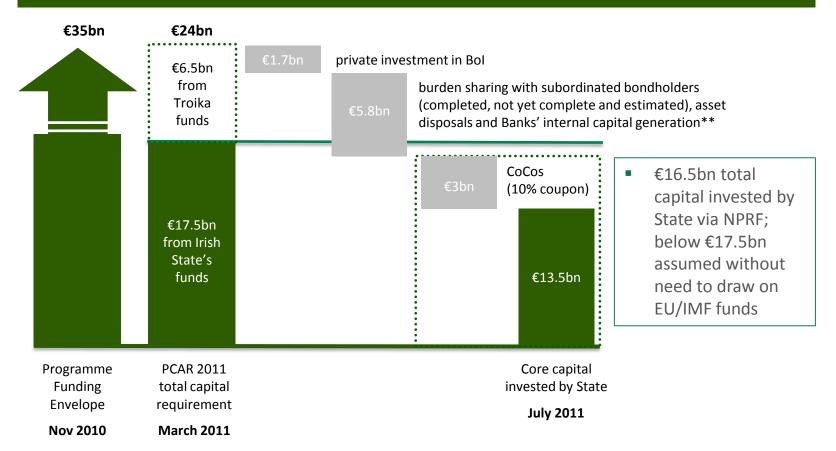

## **SECTION 6: BANKING\***

### Deleveraging plan well ahead of target and deposits are growing

\* Most information in this section is provided by the banking unit of the Department of Finance

# Lower cost to State of recapitalisation than expected at time of Programme launch

#### Recapitalisation completed on time and below expected costs

#### Source: Department of Finance

<sup>\*</sup> The State capital injections of €16.5bn (€13.5bn Equity and €3.0bn Contingent Capital) above exclude the €1.3bn cost that the State incurred in acquiring Irish Life in 2012

### Gross domestic bank recapitalisation

# Bank deposits have stabilised / Drawings on ECB facilities reduced

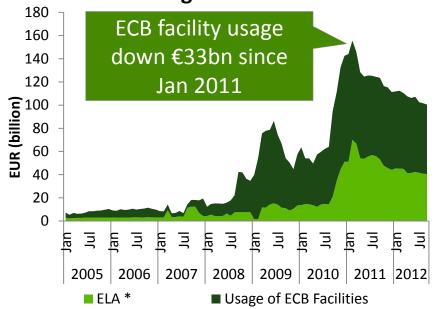

#### Covered Banks' retail & corp. deposits

Source: CBI & DoF (excludes (i) NTMA pre-recapitalisation deposits, (ii) AIB Poland)

- As of end-October Covered Banks 'deposits were up €8bn for the year to date and €6.1bn on a constant currency basis.
- Large reduction in State support with guarantees falling from a peak of c.€375bn (Sep '08) to c.€78bn (Sep '12)
- BOI and AIB have raised €1.5bn of covered bond funding

#### **Covered Bank usage of ECB and ELA facilities**

Source: CBI (\* ELA proxied by sum of CBI's other claims on euro area credit institutions and other assets)

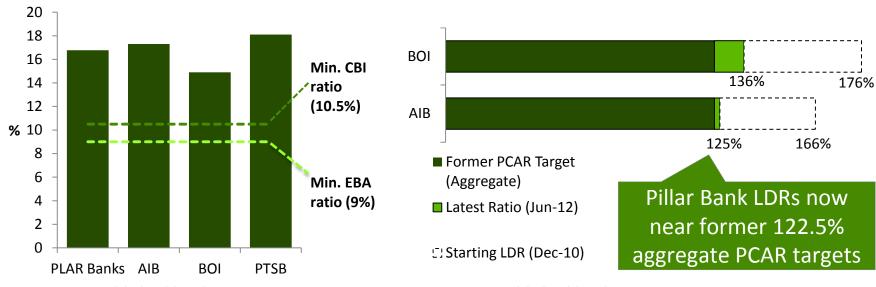

- Covered Banks' usage of ECB repo facilities has significantly fallen:
- Total ECB repo usage reduced to c.5% of total Eurosystem funding from a 2011 peak of c.18.1%
- Total usage has fallen to €60bn from €93bn
- ELA usage has also fallen substantially, down from c.€70bn to c.€41bn\*

National Treasury Management Agency

# Capital ratios and loan-to-deposit ratios strengthened

#### Core Tier 1 Capital Ratios (June 2012) Loan-to-Deposit Ratios (Dec-10 to June 2012)

Source: Published bank accounts

Source: Published bank accounts

- Core Tier 1 capital ratios at the PLAR banks remain well above minimum requirements and among best-capitalised in Europe, with significant buffers available for future losses
- Pillar bank LDRs are close to the former PCAR targets, but agreement has since been secured to streamline the deleveraging framework and remove LDR targets to minimise risks to lending and deposit pricing distortions
- Deleveraging will now be assessed based on the 'existing nominal targets for disposal and run-offs of non-core assets in line with the 2011 Financial Measures Programme while avoiding fire sales of assets' (MEFP 4)

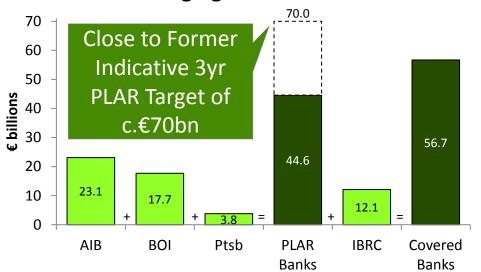

National Treasury Management Agency

68

### Deleveraging programs continue to progress

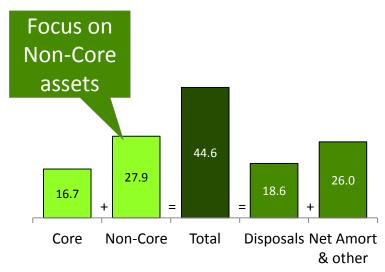

#### Bank deleveraging from Dec-10 to June 2012

Source: Department of Finance

- Total cumulative covered bank deleveraging to end-June 2012 of €56.7bn
- Successfully completed disposals concentrated at Pillar banks (AIB and BOI)
- Discounts incurred on disposals calculated off gross loan book values: AIB (6.0%), BOI (7.9%)
- Ptsb programme largely postponed pending EC's decision on restructuring plan (progress even stronger excluding this)

#### **PLAR Banks reduction split**

Source: Department of Finance

- PLAR Bank deleveraging driven by:
- Non-core loan portfolio & business sales (42%), amortisation and other items (58%)
- Several billion of further disposals on track for completion by Dec-12

69

National Treasury Management Agency

### SME credit and lending

- The SME sector (firms with <250 employees) accounts for approximately 72% of private sector employees and 52% of economic activity
- The Credit Review Office (CRO) reviews decisions by banks to refuse, reduce or withdraw credit facilities from €1,000 up to €500,000
- CRO is overturning 56% of the decisions referred to them, supplying €9.6m of credit, supporting 859 jobs in the SME sector to date
- Pillar banks report in excess of 80% of SME formal loan applications are receiving credit
- Other key policy initiatives include the introduction of demand surveys for SME credit, regional meetings on Credit Supply Reports, SME Credit Consultation Committee, Temporary Partial Credit Guarantee Scheme and Microfinance Loan Fund

### Mortgage arrears – policy responses

### Engagement with the banks – Central Bank

- Lenders have submitted loan modification and resolution options
- Ipsos MRBI engaged to conduct Household Income Survey
- Mortgage Arrears Resolution Strategies in place:
  - Code of Conduct on Mortgage Arrears
  - Mortgage Arrears Resolution Process

### Mortgage to Rent Scheme – D/Environment

- Launched in June 2012
- Involvement of 12 Approved Housing Bodies
- Involves loss of ownership for those facing repossession by banks
- Debtors become social housing tenants
- 492 cases put forward by lenders, 202 cases being progressed through the Housing Agency

...For more details on mortgage arrears policies, see Department of Finance Presentation Oct-12

#### Personal Insolvency Arrangement (PIA)

Insolvent Debtor

€20,000 -€3,000,000

Secured/ Unsecured (>6yrs) Applies via personal insolvency practitioner

Personal Insolvency Service Approved

Not
Approved

Debt settlement/restructuring mechanism provided. Family home protected, protected from action by all bound creditors & covered unsecured debts discharged after supervision period if conditions met

Exposed to creditor action and possible bankruptcy with discharge period of 3yrs

#### **Alternative mechanisms:**

Debt Settlement Arrangement (DSA)
>€20,000, Unsecured (>5yrs)
Debtor obliged to pay agreed amount for up to 5/6 years
Remainder of debts discharged at end of period

No income/assets
<€20,000, Unsecured
Write-off of qualifying debts
subject to supervision period

- DSA process similar to PIA; both require approval of 65% of creditors (by value)
- Bill Committee stage passed and expected to be enacted in December 2012
- Personal Insolvency Service to be established and operative for Q1 2013

National Treasury Management Agency

Source: PCAR 2011

- The €27.7bn of projected losses is significantly more conservative than the banks' own forecast provisions over the same period (c. €22bn) and is designed to add to the credibility of the tests
- The losses are projected on a "repossess and sale" approach using stressed property values with little recognition of customer repayment capacity, incorporating the write-down experience of foreign jurisdictions (UK repossession levels)
- Negative equity (as opposed to unemployment levels) had a large bearing on forecast residential loan losses
- Modelled rental income declines assumed on commercial real estate (with little regard to sustainable cash flows from actual lease contracts)

# Projected adverse case losses by bank and portfolio used for capital purposes (derived from BlackRock analysis)
